

Europal – Logistics Coordinator

Logistics Coordinator

Do you have a passion for logistics and are you a born planner? Do you want to play a key role in a dynamic organization where efficiency and innovation are central?

Europal is looking for a Logistics Coordinator to strengthen our logistics team!

As a Logistics Coordinator, you play a crucial role in the smooth and efficient flow of goods and materials within the organization.

Together with your team, you strive for optimal logistics processes, with a high focus on customer orientation and accuracy.

You work during the day but remain on standby by phone, and you mainly work from our site in Blandain, alternating with our site in Mouscron.

Your tasks and responsibilities are as follows:

- You plan the most efficient delivery routes and choose the best transport methods.
- You manage inventory and goods flow in collaboration with our S&OP department.
- You monitor logistics operations and ensure that deliveries arrive correctly and on time to the customer.
- You supervise the receipt, storage, and shipment of goods.

Why are you our future Power Player?

- Preferably, you have a Bachelor's or Master's degree in logistics, supply chain management, or a similar field.
- Additionally, you have at least 2 years of experience in a similar role.
- Colleagues describe you as a strong organizational talent with the ability to perform under pressure.
- Negotiating with carriers, suppliers, and internal stakeholders is something you excel at, thanks to your excellent communication skills.
- You don't see problems, only challenges that you quickly tackle with your solution-oriented mindset and knowledge of relevant logistics standards and regulations.
- The Dutch and French languages hold no secrets for you; you easily switch between both languages and master them very well. Basic knowledge of English is a plus.

Waarom je straks op die 'solliciteren-knop' moet drukken?

- In our dynamic family business, you can make a difference and see the impact. The short lines of communication and flat consultation structure make this a reality.
- 'One team' is the common thread throughout our activities.
- 'Sustainability' is embedded in everything we do, and we are driven to provide the best customer journey with a package of total solutions. We achieve this only with our Power Players (like you soon) on board.

- It sounds cliché, but we offer a competitive salary package after mapping out your wishes and desires. Think of group insurance, meal vouchers, ...
- We expect flexibility, but conversely, it is only fair that we are too. With us, you can have flexible hours and work from home one day a week.
- We are an innovative company that continues to grow, and our site in Blandain will demonstrate that.
- With some pride, we can promise that we offer 4 hours of training per person per month, and we haven't even mentioned our Europal Academy, which will soon become the jewel of our company.
- A challenging role in a growing and innovative company.
- A warm and inclusive work environment where teamwork is central.
