

Europal – Machine Operator

Machine Operator

As a Machine Operator, you play a key role in our production process. Thanks to your technical expertise and eye for quality, you ensure our folder gluer operates efficiently and delivers high-quality packaging solutions to our customers.

Job description

As a Machine Operator, you are responsible for the smooth operation of our folder gluer production line. Your responsibilities include:

- Taking full responsibility for the folder gluer production line.
- Starting up production machines.
- Changing machine setups according to production orders.
- Setting up and adjusting machine parameters.
- Monitoring production to achieve performance targets.
- Performing visual quality inspections on finished products.
- Making adjustments when deviations occur.
- Minimising machine downtime.
- Configuring and optimising machine settings.
- Palletising finished products.

Why are you our new Power Player?

- You have experience as a machine operator in an automated production environment.
- Experience with machine programming or machine setup is essential.
- You work independently and take initiative.
- You are flexible and willing to support production where needed.
- You communicate clearly, both verbally and in writing.
- You are willing to work in a two-shift system.

What's in it for you?

At Europal, you'll join an innovative manufacturing company where teamwork and entrepreneurship go hand in hand.

We offer:

- A challenging role in an innovative production environment.

- A family-oriented company culture.
- A competitive salary with attractive fringe benefits.
- A workplace that is easily accessible and free from traffic congestion.
